Policy

STES uses a systematic approach to enrolling students that ensures all records relevant to the operation as an RTO are maintained thereby enabling us to meet reporting obligations. This includes:

- Gathering accurate and complete information on each student,
- Recording competency outcomes of each student engaging in nationally recognised training.
- Providing this information to the regulatory body as required

In order to achieve this all students who participate in courses run by STES must be enrolled before the commencement of training.

The data captured on enrolment is to be used to ensure the RTO is responsive to the needs of the client as well as the individual students.

Prior to enrolment STES will provide accurate and complete information to each learner to enable them to decide the organisation and course is suitable for them, taking into account their existing skills and knowledge and any specific needs. STES will also provide clear information to learners about the areas identified in the Standard 5.
