

TLILIC0012 Licence to Operate a Vehicle Loading Crane (Capacity 10m tonnes and above)

(4-Day Course)

The TLILIC0012 Licence to Operate a Vehicle Loading Crane (capacity 10 metre tonne and above) is the current nationally recognised unit of competency. The content of this unit has been updated to comply with the new WorkSafe standards.

LEARNING OUTCOME:

- Compliance with OHS licensing legislation
- Assessment of ground conditions to confirm that the site is suitable (e.g. firm, level and safe) to operate the vehicle loading crane
- Risk assessment and hazard control strategies, including hierarchy of control as applied to the positioning and safe operation of the vehicle loading crane (particular awareness of the risks associated with overhead power lines/electrical cables, ground conditions, wind, pedestrians and tipping)
- Set up, position stabilise and operate a vehicle loading crane including all functions to their maximum extension in the loading and unloading of loads to the safe working rated capacity
- Move loads from the vehicle to the ground and/or ground to the vehicle as described in the endorsed assessment tool
- Appropriate mathematical procedures for estimation of loads
- Use of lifting equipment and basic slinging techniques suitable for the loads to be loaded/unloaded as defined in the workplace procedures
- Awareness of the boom/jib movements and particularly the safe positioning of the operator for any lift

Upon successful completion of this course, student will be awarded a Statement of Attainment and the High Risk Work License* to Operate a Vehicle Loading Crane (capacity 10m tonnes and above) by WorkSafe WA.

(* STES will submit student's WorkSafe application and issue the SOA after full payment is received)
